

Martha Kotila

TAPEIT Board Member

I have been working in police property and evidence since November 2006 and have been a member of TAPEIT since October 2007. I graduated from college in December 2005 from Angelo State University with a degree in Kinesiology and needed a full-time job. I stumbled across a job opening for a Property Clerk at San Angelo Police Department and thought it sounded fun. I never would have imagined that I would fall in love with the work and still be doing it years later. I worked at SAPD for a little over five years and decided it was time for a change. I got hired as the Property & Evidence Analyst with Flower Mound Police Department in March 2012. I was responsible for the physical evidence, like I was in San Angelo, but I also work on the digital evidence connected with the cases. I worked there until February 2025 when I was hired as the Property & Evidence Technician with the Kyle Police Department. I love working for KPD. I am respected for my experience and knowledge of evidence handling.

I met my husband, Daniel, shortly after moving to the DFW area and have been married since 2014. In 2021 we adopted the cutest little boy, Patrick. He is a true blessing in our lives that we are so lucky to have. It is fun to watch him grow and become a precious little boy. My favorite color is green, I collect bouncy balls and LOVE ketchup.

I am excited to be on the TAPEIT board to help others and share my experience. With laws and rules constantly changing, it is important to have a community to fall back on to seek advice and exchange ideas.
